2021 23:01	Lighthouse Report Viewer	r
Serve images in next-ge	n formats	2.4 s 🗸
▲ Efficiently encode image	es .	1.88 s V
Properly size images		0.4 s ~
Diagnostics — More inform directly affect the Performan	nation about the performance of your applince score.	cation. These numbers don't
▲ Serve static assets with	an efficient cache policy — 21 resources	found
▲ Ensure text remains visi	ble during webfont load	~
▲ Image elements do not l	have explicit width and height	~
Avoid enormous network	k payloads — Total size was 3,856 KiB	~
 Avoid chaining critical re 	equests — 8 chains found	~
Keep request counts low	w and transfer sizes small — 22 requests	• 3,856 KiB ~
Largest Contentful Paint	t element — 1 element found	~
A	s — 3 elements found	

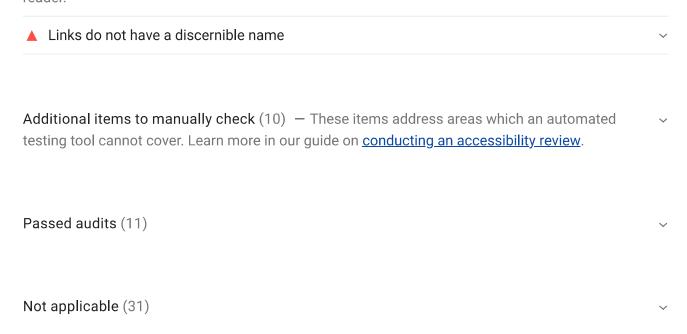

These checks highlight opportunities to improve the accessibility of your web app. Only a subset of accessibility issues can be automatically detected so manual testing is also encouraged.

Contrast — These are opportunities to improve the legibility of your content.

▲ Background and foreground colors do not have a sufficient contrast ratio.

Names and labels — These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

Best Practices

Trust and Safety

Includes front-end JavaScript libraries with known security vulnerabilities — 9 vulnerabilities detected Ensure CSP is effective against XSS attacks

Passed audits (16)

Not applicable (1)

These checks ensure that your page is following basic search engine optimization advice. There are many additional factors Lighthouse does not score here that may affect your search ranking, including performance on Core Web Vitals. Learn more.

Additional items to manually check (1) — Run these additional validators on your site to check additional SEO best practices.	~
